Secure Code Warrior  
Invitation

# DevOpsDays

DevOpsDays Jakarta is a worldwide series of technical conferences covering topics of software development, IT infrastructure operations, and the intersection between them. Each event is run by volunteers from the local area.

DevOpsDays Jakarta in 2020 would be the third series of DevOpsDays Jakarta after a success in 2018 with more than 270 participants and in 2019 with more than 520 participants.

# Secure Code Warrior

Secure Code Warrior platform allow organizations to run competitive and engaging events that get the whole Developer community involved. Players will be presented with a series of code challenges that will ask them to identify the problem, locate the insecure code, and fix the vulnerability. All challenges are based on real code examples, and are ranked from easy through to fiendishly hard! Each player can choose from a range of software languages to compete fairly in the Tournament.

Throughout the Tournament, Developers will earn points and they can watch as they climb to the top of the leaderboard and be crowned the 'Secure Code Warrior.'

「DEVELOPERS DON'T NEED TO BECOME SECURITY EXPERTS, BUT THEY MUST BE EMPOWERED TO BE THE FIRST LINE OF DEFENSE FOR THEIR ORGANIZATION」
